Where:	Fairfield RSL Club, 14 Anzac Avenue Fairfield NSW
When:	Monday 13 th September 2010, T3 Wk 9 8:30 _{AM} – 3:00 _{PM}
Who:	South Western Sydney Region Teachers (150 participants maximum)

Overview

The SWSR KLA Curriculum Innovators Showcase Day is an opportunity to view some exemplary samples of integration of DER software into the curriculum as a result of the original SWSR KLA Curriculum Innovators Training Initiative.

Select presenters from schools across the South Western Sydney Region will be showcasing examples of how they have implemented an example of DER software in the classroom and give short introductory hands-on tutorials.

The KLA Curriculum Innovators Initiative is a major professional development program aimed at supporting the Digital Education Revolution (DER NSW) in South Western Sydney Region. [Four staff members \(from different KLAs\) from every secondary school and two staff members from special school settings](#) had the opportunity to be trained in the use of selected Adobe and DER NSW software programs.

The initiative aims to build a sustainable level of ICT capacity at your school, by training a team of staff members in core software programs that form part of the DER laptop rollout.

Workshop Content

Workshops	Overview
Adobe Captivate	Captivate allows users to develop and share presentations, quizzes & computer simulations without the need for programming or multimedia skills by simply recording onscreen activity.
Adobe Photoshop Elements	Photoshop Elements is a graphics editing program & is the current market leader for image manipulation.
Acrobat Pro Extended	Acrobat Pro allows users to unify a wide range of content in a single organised PDF Portfolio.
Adobe Dreamweaver	Dreamweaver is a web-development application that allows users to build quality websites and applications.
Adobe Premiere Elements	Premiere Elements helps educators engage students in learning through digital video and audio projects.
Microsoft OneNote	MS OneNote is designed for organising information and notes such as meeting and student class notes and has been utilised powerfully as a replacement for student class exercise books, text books, research guides and portfolios.
And more!	More exciting software demonstrations will be offered where appropriate & according to availability

These workshop topics are subject to change depending on availability

SWSR KLA Curriculum Innovators – DER Showcase Day
